Thank you for your interest in our services. We offer a variety of medical history templates and report building solutions.

After receiving patient information, the patient is contacted and a history is taken specific to the dates of injury, body parts, and letter(s) (if available) from the parties to address the issues set forth in the claim.

Historians will produce the history written in English within 1 business day of interviewing the patient and upload or email the file in the client's preferred method and document type.
